

Apollo SM/CM

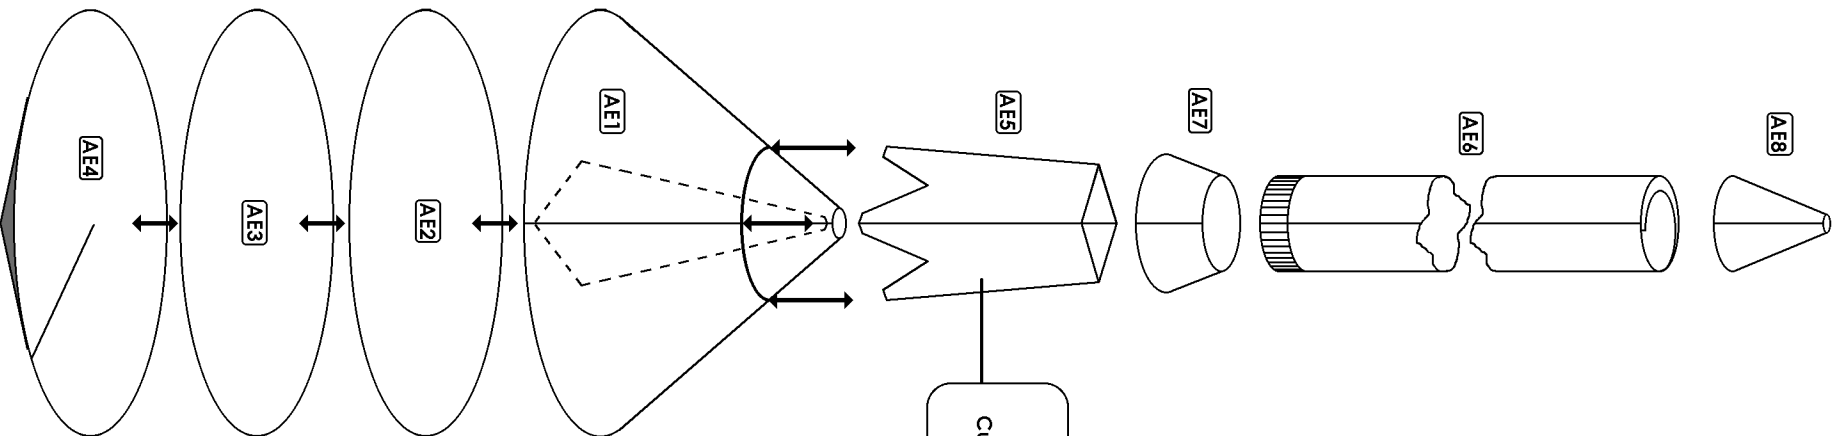

Take normal paper. Roll to a tight massive pipe and glue it into the top of cone. make it ± 4 mm longer and impregnate the paper with superglue. Cut the end into a sphere.

Paint the inside of the engine black

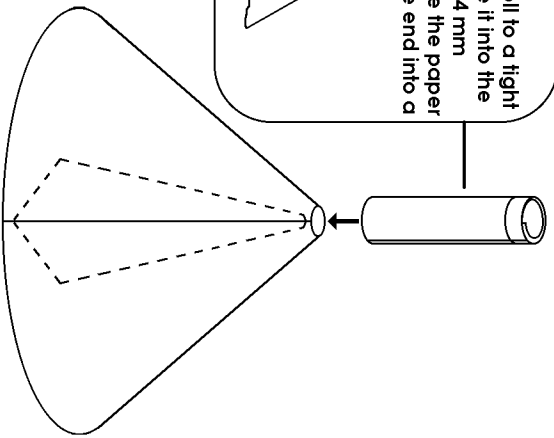

Apollo escape-tower

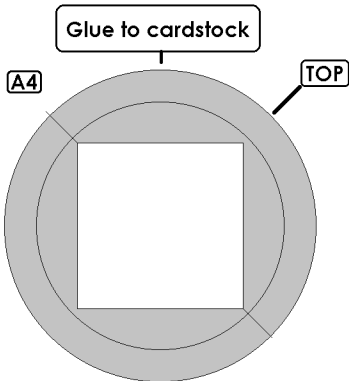

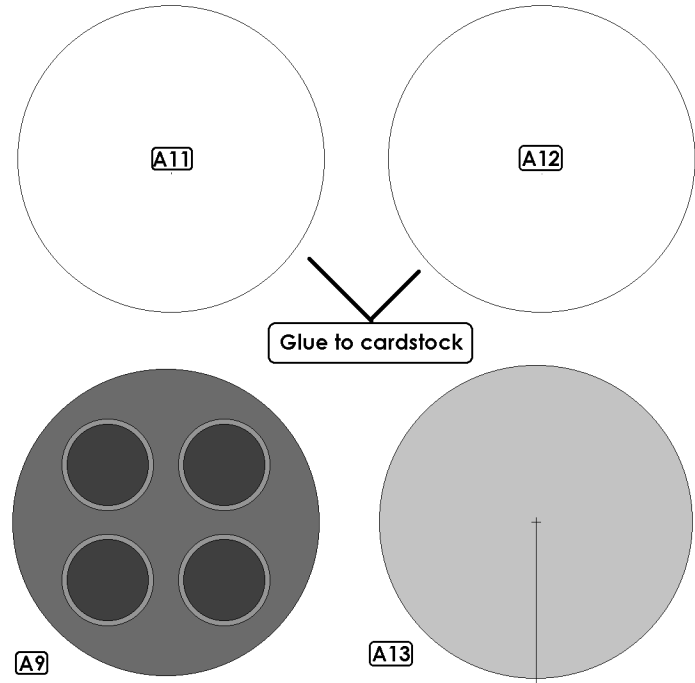

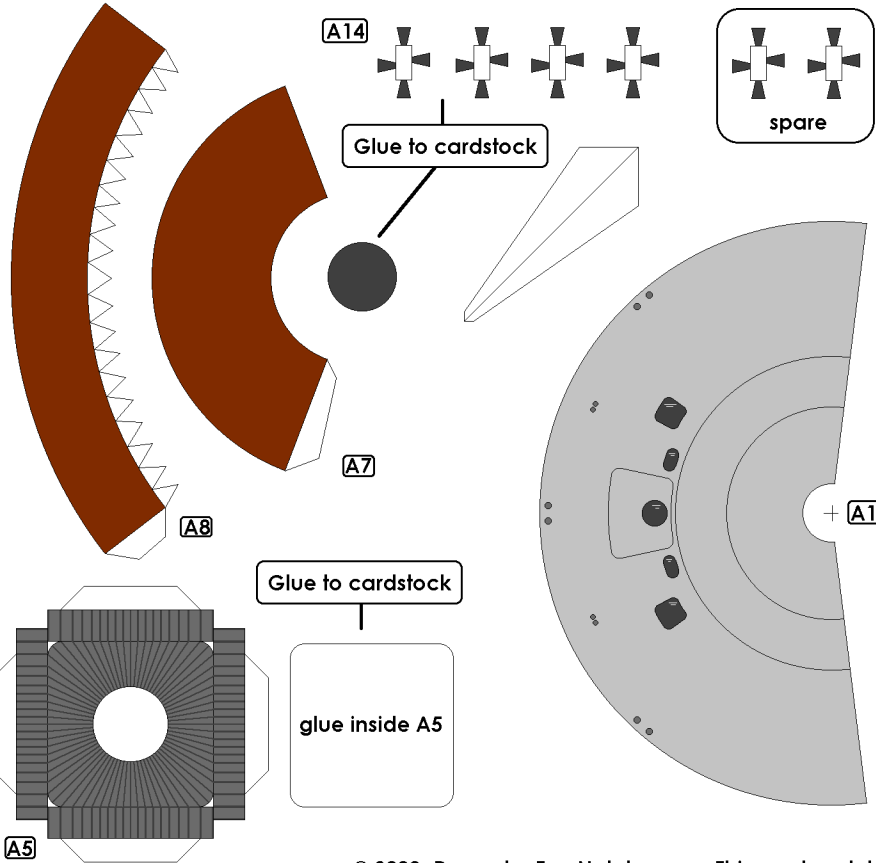

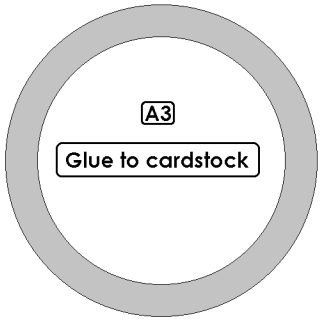

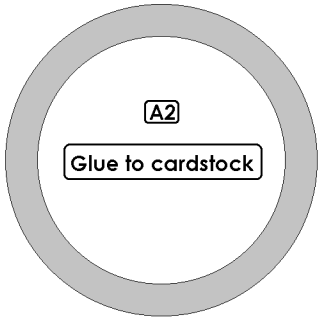

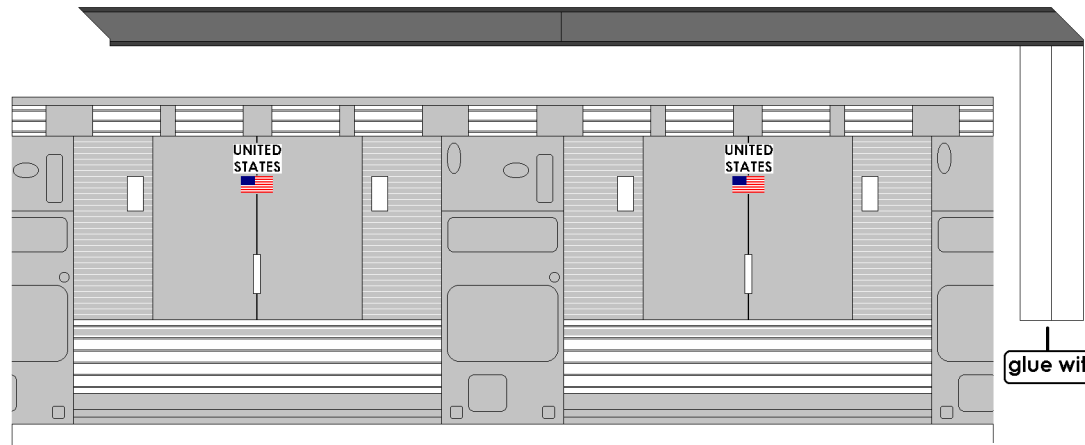

DIFFICULT!!
Cut out the latticework of the escape tower.....For a much better effect.
It can be done!

Take normal paper. Roll to a tight massive pipe and glue it into the top of cone. make it ± 4 mm longer and impregnate the paper with superglue. Cut the end into a sphere.

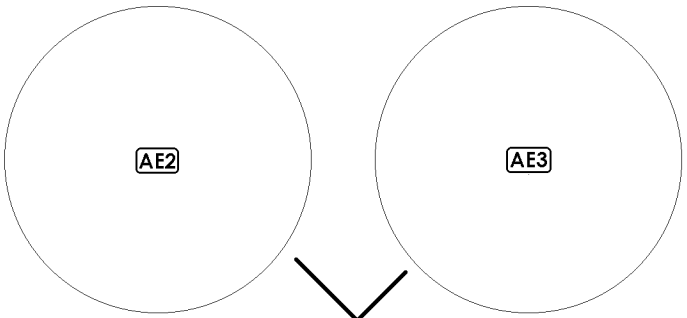

Apollo SM/CM

A6

Apollo escape tower

Glue to cardstock
